The Legal System is not Perfect. Mistakes Happen.

What if you just spent the last twenty years in prison, for a crime someone else committed?

This is the Sundance Film Festival award-winning true story about men who lost everything,
EXCEPT THE WILL TO FIGHT.

The award-winning *After Innocence* tells the dramatic and compelling story of the exonerated - innocent men wrongfully imprisoned for decades and then released after DNA proved their innocence. Thrust into society, ignored by the government, with no money, no jobs and no support- how do these men reclaim their lives? What happens when our criminal justice system fails and imprisons the WRONG person?
